UD/MIPS Modifications

Automate Payment of Lump Sum Leave(LSL)

- Reserve Members called to Active Duty for periods of 31 days or more, not to exceed 365 days on or after 20011001, are authorized to be paid LSL in excess of 60 days in a career.
- The logic for TTC 401 000 was modified to allow reporting of more than 60.0 days LSL for Reserves on Active Duty for periods of 31 not to exceed 365 days.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

Combat Zone Tax Exclusion Modification

- Units in the past had to report TTC 432 001 (Start) and TTC 433 000 (Stop) Tax Exclusion each time members moved in and out of a Combat Zone. This caused incorrect “from” and “to” dates within MCTFS on members:

Federal Tax Withheld Remark (D604)

Combat History Remark (D977)

- TTC 432 001 has been modified to allow units the capability to report country/CZTE location codes as often as needed. However, regardless of effective date entered, the remarks will reflect the first of the month and the last location reported.

	(Date)	2 Byte Loc Code
432 001 START TAX EXCL	_____	LOC _____

UD/MIPS Modifications

Change to Courts -Martial Reporting

- TTC 283 000 may no longer be used to report courts-martial for Marines on Active Duty
- You are required to report TTC 257 000 for all courts martial.
- When information contained within this transaction is reported correctly,
reduction and/or the placement of a Marine in a total pay and allowance
or total basic pay forfeiture status will occur automatically.

TTC 257 000 FORF \$___ MO ___ TYPE ___ CNFT ___ DISCH ___

UD/MIPS Modifications

Platoon/Company Code Enhancements

- Since the early 1970's Platoon/Company Code fields have been at the front of an input war between units servicing Marines' records.
- To ensure a Marines record is correct, TTC 470 000 has been modified to allow MCTFS to track up to 5 levels of Platoon/Company Codes.

- Present Unit
- FAP
- TAD
- Additional TAD
- Reserve Unit

Reporting Unit Code			
	RUC	Platoon Code	Co. Code
Present:	12190	BHQS	B
FAP	00000		
Temporary:	00000		
Add'l Temporary:	00000		
Former:	27121		
Future:			
Reserve:			

UD/MIPS Modifications

□ TTC 470 000 was modified to include RUC, Company Code, Platoon Code and Work Section.

□ Upon implementation, a utility will populate company and platoon codes for all Marines.

□ This modification allows units to report one transaction vice three to update the workflow requirements of future enhancements in MOL.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

EDFR Enhancements 2003

- Provides users the functionality to fully regenerate failed transactions within DFR.
- Added an option to the DFR Tools menu to Create Volume Transactions
from the Part II or III Transaction tabs for selected transactions that share the same TTC and sequence.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

Incurred Obligated Service Code and Incurred Service Date

- ☑ Automated the process to check a Marine's record when a request for retirement/resignation is submitted to ensure any incurred obligated time requirement has been fulfilled.
- ☑ The Incurred Obligated Service Code and Incurred Obligated Service Date will be displayed on the ACIP, TOUR and TBTR screens within MCTFS

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

Advisory for Clothing Replacement Allowance

- A new CO advisory (C06) for the Inconsistent Condition Report (ICR) has been added to Part III of the DFR/EDFR.
- It will advise the unit when a member does not have a valid Clothing Replacement Allowance due to a prior separation.

“REFER TO MCTFSPRIM CHAP 8 FOR CRA ACTION”

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

Combat Physical Fitness Test (PFT) Waiver

- A new TTC sequence has been created which will post a Physical Fitness Class code of '9', denoting that the Marine is currently performing combat service.

TTC 481 012 PFT NREQ |

- Reporting this sequence will cause the Marine's current PFT information field to take the action date of the diary it is reported on.
- Marines must be in receipt of Hostile Fire Pay for this new transaction to process successfully.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

DNA Testing Date

- ✦ A new TTC to report DNA Test has been Created:

TTC 039 000 DEOX ACID TEST DATE _____ |

- ✦ The DNA date will be displayed on the Mainframe, MOL, and MIPS BIR's. Additionally, the HIV III Tested data element was moved from the BTR to the BIR.

PERSONAL INFORMATION

Home of Record: 009 / 33 / 0420

Country of Origin: US

Blood Type: 2 A POSITIVE

DNA Date: 0000/00/00

HIV III Tested: 1999/02

Sex: M

UD/MIPS Modifications

Electronic Unit Diary

Unit Diary Module

- The Unit Diary Management window now manages all transactions.
This window allows authorized ELSIGs to:

- ◆ Assign Transaction to the Diary or Transaction Pool
- ◆ Create Diaries
- ◆ View Transactions
- ◆ Change the STATUS of transactions
- ◆ View /Add/Edit Notes
- ◆ Make courier and archive/recover functions.

- This window is set up similar to Microsoft Outlook or Window Explorer
- It consist of three windows:
 - Tree View Pane
 - List View Pane
 - Preview Pane

UD/MIPS Modifications

Electronic Unit Diary

- ▢ Functionality within the Panes
 - ▢ Drag-and-drop exists for transactions to allow users to click and hold a transaction and move it from the transaction pool to a diary or from a diary to the pool.
 - ▢ Within the List View Pane the column headers have sort/filter functionality along with the ability to choose which columns the user would like to display.
 - ▢ Users can create and store transactions in the transaction pool without creating a diary, allowing transactions created by different users to be applied to the same diary.

SR 2003.1 Projects

UD/MIPS Modifications

Electronic Unit Diary

▯ Functionality within the Panes

- ▯ Within the Preview Pane, right-click functionality provides the users with a drop-down

- New Transaction
- Edit Transaction
- Flag Transaction
- Assign to Unit of Work
- Transaction Status/Notes
- Delete Transaction
- Move Transaction

- ▯ The same right-click functionality is provided on the Transaction menu located above the tool bar.
- ▯ The Research Diary has replaced the rough Unit Diary.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

Electronic Unit Diary

□ Functionality within the Panes

- Users can select several pooled transactions and assign them
to a “Unit of Work” exclusively for their use.
- The Unit of Work was created as a working document when
reviewing the supporting documentation.
- The Unit of Work and Research Diary reports are located on
the Reports Menu above the tool bar; both are printable.

SR 2003.1 Projects

Unclassified

UD/MIPS Modifications

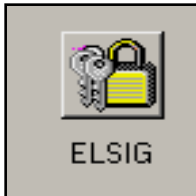

Electronic Unit Diary

EDFR Module

▢ Users with the proper ELSIG privileges may add Part II or Part III transactions to the Transaction Pool or directly to a Unit Diary.

ELSIG Module

▢ New privileges have been added to the ELSIG Module:

Diary Status Assignments, Edit/Delete All Transactions
Create Diary, Transaction Assignment, Create Courier
Archive/Recover Diary, Edit Notes, Lock/Unlock Diary
Mass Deletion, Remove Track Courier Log,
Turn On/Off Scheduled Events,
Remote Execution of Scheduled Events

SR 2003.1 Projects

UD/MIPS Modifications

Electronic Unit Diary

- Each ELSIG Type now has a set of predefined privileges with the installation of the software and the ability for the CO/ECO to establish and apply their own default privileges for each ELSIG type.

- The user now has the ability to find out what privileges they possess.
A new menu item (ELSIG Current Privileges) has been added to the File menu, located above the tool bar in all UD/MIPS modules except the ELSIG modules.
